ICOPAY · Payment Gateway

Split Payment — User Manual

Merchant screens — split URL, contracts, installments, daily ops

V2.64 · 2026-07-23

Contents

1. Scope
2. Sign-in
3. Enablement
4. Company info — Split URL
5. Split management (if permitted)
6. Payment list
7. Quick checks
8. Daily checklist
9. Support

1. Scope

Share the split-pay link and track contracts/installments. Not an API guide.
Menus follow HQ permissions. PG names show as ICOPAY on buyer UI.

2. Sign-in

1) Sign in 2) Permitted menus only 3) Language 4) Dashboard

3. Enablement

Split payment must be ON for your merchant. Ask HQ if URL/menus are missing.

4. Company info — Split URL

Path: Companies → Company info
Copy Split payment URL and share with the customer. Test in your browser.
Note: Off split-pay may hide or disable the URL.

5. Split management (if permitted)

Path: Split management
Review contracts, installment status, arrears. Do not change installment rules arbitrarily.

6. Payment list

Path: Payments → Payment list (or Split payment list)
Each installment appears in payment history. On failure, ask the customer to retry.

7. Quick checks

· No URL/menu → enablement/permissions

· Failed installment → fail reason in payment list
· Arrears → check Split management then escalate

8. Daily checklist

1 Notices 2 Test Split URL 3 New contracts & unpaid installments 4 Escalate spikes with contract/order ids

9. Support

Ask HQ/distributor for settings. Document version V2.64.
